

School Council project 2 (learning tips)

How can we concentrate more in class?

We can concentrate more in class by: having a good routine (eating breakfast), making wise choices about partners and seating in class, organising things the night before, ignoring distractions and going to bed quite early.

What can staff do to help you learn more?

Teachers can help you to learn more by challenging pupils more, motivate children who might be struggling and informing parents about behaviour/learning.

How can children organise their homework better?

Children could organise their homework better by: asking parents to help, check you understand it before you take it home (if you struggle and so do your parents, ask a member of staff), find a quiet place to do it and you could do extra work.

What other learning tips can we do?

You can take risks, challenge yourself, try your best, focus more, do your homework in little bits or make sure you do it as soon as you get it and you can check your work if you finish early.

Learning Knows No Bounds
